

HEAR YE! HEAR YE!

We The People of the United States of America are your employer. You are OUR representatives in Washington State and Washington D.C. **We the People** demand that you understand and correct the following:

Whereas we have sent hundreds of thousands of letters, emails, faxes and phone calls only to be completely ignored by overloaded switchboards, unusual system shutdowns, and full voicemail boxes.

Whereas you continue to disregard and ignore the pleas of millions of Americans with an overwhelming majority of America's citizens opposed to the bailouts and so-called "stimulus" plans at a ratio of 100:1.

Whereas thousands of Americans are losing their jobs daily and facing serious financial challenges due to Washington D.C. corruption and incompetence.

Whereas industry and small businesses have left the United States in large numbers because of seriously flawed policy, agendized environmental policy and ridiculous overregulation.

Whereas you have failed to solve the illegal immigration problem and have failed to secure our borders as was demanded by the American people.

Whereas you are breaking the back of the American taxpayer so that you can continue giveaway entitlement programs that go to those here illegally and those who simply refuse to help themselves, bankrupting our communities and making needed local programs insolvent for those truly in need.

Whereas you continue to corrupt our government by appointing and hiring thieves, political activists, tax cheats and liars to oversee critical government functions requiring the utmost in honesty, integrity and fairness.

Whereas you continue to refuse to address our long range energy goals with sensible and ecologically sound solutions, including nuclear power, clean coal technology and offshore drilling.

Whereas the people have spoken and we have told you we want a fair tax system that eliminates double taxation and is simple and easy to understand, yet you do nothing to correct these problems.

Whereas the size of government continues to increase and is never reduced, despite harsh economic times, further burdening the American taxpayer with government excess and regulation in order to justify its existence.

Whereas you continue to overly-burden the American taxpayer with out of control spending and indebting us and our descendants for generations to come.

Whereas we continue to have the most expensive and poorest performing schools in the world due to liberal activism and special interests indoctrinating, instead of educating, our children.

Whereas you continue to attempt to legislate subordination of the United States to foreign and United Nations controls, despite the overwhelming majority of American citizen demands.

Whereas we want you to uphold our beloved Constitution and protect American sovereignty for us and our descendants, yet you continually find ways to undermine and attack it through relentless taxation and legislation.

Whereas you have bankrupted **every single** federal entitlement program and have turned the United States government into a giant Ponzi scheme.

You have collectively broken faith with the will of *We The People*, The American citizens and taxpayers who selected YOU to correct these problems and others and you have failed to do so. Instead, you are ruining our country by your recklessness and incompetency. Your continued *attacks* on the American way of life will not be tolerated!

Correct these problems or you will be fired and replaced with someone who will!

535 Average Americans from across the United States could and would do a better job!

~ Your employer, an American voter and taxpayer.
